QUALITY & COMPLIANCE SYSTEM

Why did I partner with Smartgate?

After 30 years of military service I have been part of some truly amazing teams working in the most extreme and challenging of clinical environments:

- Training military hospitals to go to on operations
- Helping the UK Government to create a bespoke Ebola Treatment Faculty that was pivotal in containing the recent epidemic

...delivering world class healthcare in the face of real adversity.

How was it achieved?
Using a unique and proven assurance framework refined over 5 years delivering the most effective trauma system in the World.

World Health Organization

Risk Assessment

The World Health Organisation conducted an Infection Prevention Control audit of the KTTU on 28 Feb 15. This was the first external audit of the facility and gave a compliance rating of 100% which is **the highest score ever awarded to an ETC**. The average score on a first visit is typically 78.74%. Prior to visiting the KTTU the highest score recorded in any facility visit was 95%.
