Innovate UK – Sector focus

Emerging and Enabling Technologies

Identifying and investing in technologies and capabilities that will lead to the new products, processes and services of tomorrow

Health and Life Sciences

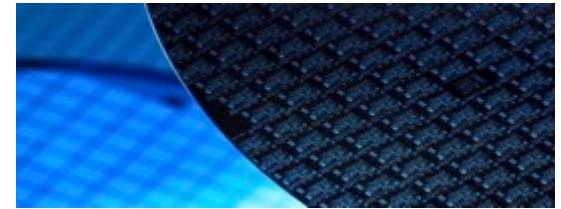

Focused on agriculture and food and healthcare, underpinned by bioscience and medical research and enabled by engineering and physical sciences

Infrastructure Systems

Optimising transport and energy systems and integrating them with other systems such as health and digital

Manufacturing and Materials

Advancing manufacturing readiness so R&D and technology developments increase productivity and capture value in the UK

Thank you
