#### 4<sup>th</sup> Year Students

- 6-10 weeks
- Pharmaceutical & Forensic Science students

## Rachel Carpenter

Associate Director, Clinical Data  
Management

PRAHEALTHSCIENCES

The **straight forward process** when it came to advertising for a student placement with the USW was a breeze and it was evident that **the students were fully engaged** with the format due to the number and quality of CVs we received through...it led to a **fantastic student** being taken on by us in the Summer of 2016 from USW.....she threw herself into work life and showed **a great level of professionalism and work ethic**. I really couldn't have been more impressed. This fantastic experience **led to us increasing our summer student placements** to three in 2017 and I have no doubt we will do the same next year.

# SCIENCE | FUTURES

## 22<sup>nd</sup> November 2017

**Science Futures** is for all final year Chemistry, Pharmaceutical Science and Forensic Science students. The aim of the event is to give students an opportunity to explore the science sector, network with employers and find out about opportunities available.

The programme includes short presentations from USW alumni, a 'Question Time' style career panel and networking activity – all designed for students to fully engage with employers attending.

Participating as an employer is a great opportunity to meet our students, identify future talent and raise your profile on campus.
