A WELSH GOVERNMENT PRIORITY SECTOR

- The Welsh Government has directly supported over 650 jobs and 11 foreign direct investment projects in the last year.
- A truly cross-cutting sector with the genuine potential to be an important driver of economic growth and improved wellbeing in Wales.
- The Life Sciences Hub Wales plays a pivotal role as a ‘front door’ to the sector in Wales and is developing a clear focus on supporting and accelerating innovation.
- The sector benefits from a small and agile NHS in Wales and has well developed links in place.
- Serves large global markets, which are growing quickly and consistently.
- Clusters of genuine excellence from research to manufacturing and is well placed in terms of scale, integration and access to markets to exploit and develop opportunities.
